

JAYANI SASHIKALA

Undergraduate in Data Science

+94 76 327 0180 | Horana, Sri Lanka | jayanisashikala38@gmail.com | [LinkedIn Profile](#) | [GitHub](#) | [DAGsHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data Science undergraduate with hands-on experience in data analysis, SQL, Python, Power BI, data cleaning, feature engineering, data modeling, dashboard development, business intelligence, ETL, machine learning, and predictive analytics. Skilled in transforming raw data into meaningful insights through academic projects involving customer analytics, sales analysis, forecasting, and business reporting. Seeking an opportunity to apply analytical skills, solve real-world problems, and gain industry experience in a data-driven environment.

EDUCATIONAL QUALIFICATIONS

BSc (Hons) in Data Science

2023-Present

Sri Lanka Technology Campus (SLTC)

Current GPA: 3.69/4.00

G.C.E. Advanced Level

2022

Taxila Central College Horana

Physical Science: Combined Mathematics (S), Physics (S), Chemistry (C)

PROJECTS

End-to-End Customer Churn Prediction with MLOps (Group)

Feb 2026 – Mar 2026

Built a production-ready MLOps pipeline that predicts customer churn for Telco customers.

- Cleaned and prepared 7,043 customer records by converting data types, handling missing values, encoding categorical variables, scaling features, and creating an 80:20 train-test split.
- Trained and compared 3 machine learning models (Logistic Regression, Random Forest, and XGBoost), selecting Logistic Regression as the production model with 81.97% accuracy and 0.8621 ROC-AUC.
- **Technologies:** Python, Scikit-learn, MLflow, DVC, Apache Airflow, Docker, FastAPI, DAGsHub

Big Data E-Commerce Analytics Pipeline (Group)

Jan 2026 – Feb 2026

Implemented an end-to-end Big Data analytics pipeline to process 541,909 UK e-commerce transaction records using a Bronze–Silver–Gold architecture for scalable business analytics.

- Cleaned and validated e-commerce data by handling missing values, duplicate records, cancelled invoices, and invalid prices.
- Engineered 10 features such as revenue, time-based features, and customer purchase behavior features to prepare the data for business analysis.
- **Technologies:** PySpark, MongoDB Atlas, MongoDB Spark Connector

Coffee Shop Sales Analysis & Sales Prediction

Nov 2025 – Dec 2025

Developed a business intelligence solution to analyze coffee shop sales data and predict sales using machine learning, to identify sales trends and customer purchasing patterns.

- Cleaned and prepared sales data by removing duplicate records and creating a reliable dataset for analysis.
- Built and evaluated Linear Regression and Random Forest models, with Linear Regression achieving the best performance ($R^2 = 0.56$).
- Designed interactive Power BI dashboards and Python visualizations to provide key business insights.
- **Technologies:** Python, Pandas, NumPy, Scikit-learn, Matplotlib, Power BI, Excel

Retail Sales Data Warehouse & Business Intelligence Dashboard (Group)

Jul 2025 – Aug 2025

Designed and implemented a retail data warehouse to support business intelligence reporting using SQL Server and Power BI.

- Created interactive Power BI dashboards to visualize monthly revenue, regional sales, product performance, and customer segmentation.
- Presented analytical insights that supported data-driven business decision-making.
- **Technologies:** SQL, Power BI, ETL

LEADERSHIP & VOLUNTEERING

- **Assistant Secretary, ITIA Career V1.0 – Information Technology Industry Association (ITIA) of SLTC** 2026
Managed event documentation and supported the coordination of a 2-day career development workshop, contributing to effective planning and the successful execution of the event.
- **Secretary Team Member – Sports Council of SLTC** 2026
Helped the planning and coordination of university sports activities by assisting with documentation and communication.
- **Coordination Head, InspiHER{Tech} V3.0 – IEEE WIE Student Branch Affinity Group, SLTC** 2025
Coordinated event operations and managed communication among 30 participating teams to ensure smooth execution of the competition.

ACHIEVEMENTS & CERTIFICATES

- First Runner-Up, InspiHER{Tech} V4.0 - IEEE WIE Student Branch Affinity Group, SLTC | 2026
- Certificate of Participation, Bio Fusion Hackathon - IEEE, University of Sri Jayewardenepura | 2025
- Certificate of Appreciation, Emerging Scholars' Research Programme - Certificate Phase - Faculty of Postgraduate Studies & Research, SLTC | 2025
- SQL (Basic, Intermediate) Certification — HackerRank | 2025

SKILLS

Technical Skills

- **Programming Languages** – Python, Java
- **Data Analysis & Visualization** – Pandas, NumPy, Matplotlib, Excel, Power BI
- **Big Data & Data Engineering** – PySpark, Apache Airflow, MLflow
- **Databases** – MySQL, MongoDB
- **Frameworks** – Flask, Flutter
- **Tools & Platforms** – Google Colab, Jupyter Notebook, Visual Studio Code, Docker, Jira
- **Version Control** – Git, GitHub, DAGsHub

Soft Skills

- **Team Collaboration & Leadership**
Works effectively in teams and takes the initiative to achieve project goals.
- **Project Management**
Plans, organizes, and completes tasks efficiently to meet deadlines.
- **Learning Agility**
Quickly learns new tools, technologies, and techniques to improve performance.
